

2016 | **RANGER**

Courtesy of Ford Motor Company

GET A RANGER.

Life can be tough. Tough on you and tough on your pickup. Whether you need one for work or play – or both – the new Ford Ranger has been designed and engineered to take almost everything you can throw at it, and come back for more.

GET IT DONE.

The new Ranger helps you overcome demanding challenges with advanced driving technologies, a choice of powerful engines and an abundance of comfort and convenience features. And, depending on how you'll use your new Ranger, you can choose from Regular Cab, RAP Cab and Double Cab bodystyles, too.

LIMITED Double Cab 4x4. Oyster Silver. Available equipment.

GET NOTICED.

Ranger exudes a powerful presence – both on and off road. Sleek new headlamps, front bumper, hood and 3-bar front grille – plus a steeply raked windshield and pronounced wheel arches – ensure Ranger will make a strong impression.

The elevated ride height provides a commanding view out. The raised beltline offers enhanced protection, while big mirrors help you keep an eye on what's going on behind.

WILDTRAK Double Cab 4x4. Pride Orange. LIMITED Double Cab 4x4. Performance Blue. Available equipment.

GET THE ABILITY YOU WANT.

The Ranger 4-Wheel-Drive System incorporates electronic shift-on-the-fly (ESOF)¹ to let you move smoothly from 2-wheel drive to 4-wheel drive without having to stop the vehicle.

When you're off-roading, you need to stay above obstacles if you want to stay on the move. The confidence-inspiring approach, departure and breakover angles of Ranger – plus its equally impressive turning circle – help you do exactly that.

A boost when you need it. Ranger is now available with electric power-assisted steering (EPAS), which constantly adjusts its level of assistance. Full power is provided at parking speeds for easy maneuvering. When you're out on the road, it weights up proportionally as your speed increases for the best possible feel and control.

LIMITED Double Cab 4x4. Ocean. Available equipment.

¹Standard on 4x4 models. ²Figure is for 4x4 models. ³4x2 is 11.8 m. ⁴When properly equipped. ⁵4x4 with a braked trailer.

GET THE POWER YOU NEED.

Ranger is available with a 2.5L petrol engine, or a choice of 2.2L or 3.2L diesel engines.¹ Each of these high-tech units combines power and efficiency with fantastic range. For example, the 110-kW 2.2L high-output diesel engine puts up to 277 lb.-ft. of torque at your disposal for excellent flexibility when you are on the move.

Depending on which model and engine you prefer, Ranger comes with either a 5- or 6-speed manual transmission,¹ or a smooth 6-speed automatic¹ that features a manual sequential-shift capability.

Prevention is better than a cure. That's why Ranger incorporates an Anti-Lock Brake System (ABS)¹ to help you steer clear of an accident. However, even ABS is no guarantee, so Ranger also includes a collapsible steering column and pedals, and active restraint systems, including multiple available airbags.

WILDTRAK Double Cab 4x4. Pride Orange. Available equipment.

¹Available feature.

GET CONNECTED.

Ranger keeps you in touch with your world regardless of your work or leisure pursuits.

Voice-activated SYNC^{®1} makes it easy to stay connected. No more searching for your phone. No device on your ear. Once paired, SYNC recognizes your phone and automatically transfers your contacts to support voice calling. It lets you play music from your phone, MP3 player or USB, as well as providing quick and easy browsing of your phonebook and song lists. SYNC does all of this with simple voice commands. And it has an 8" color display¹ for your convenience.

| SYNC

WILDTRAK Double Cab 4x4. Caliber Cloth in Trak Orange and Ebony leather in Journey Grain. Available equipment.

¹Available feature. Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. Functionality varies by market.

A HUGE CAPACITY FOR HARD WORK.

Regular Cab is the perfect choice if your main priority is a generous load-carrying capacity, and you only need seating for 3. With a cargo box that is 2,317 mm long, Regular Cab may even enable you to make just one trip when two might usually be required to finish the job.

COMMERCIAL Regular Cab 4x4. Sea Grey. Available equipment.

¹To the top of the cargo box. ²When properly equipped.

Length	2,317

Dimensions may vary by trim level.

THE BEST OF BOTH WORLDS.

RAP Cab offers the ultimate in Ranger flexibility. Two rows of seats and easy access courtesy of rear-hinged rear doors – plus extra space behind the front seats when you only need room for 2 – are complemented by a cargo box that is an impressive 1,847 mm long.

XLT RAP Cab 4x4. Moondust Silver. Available equipment.

PASSENGER-FRIENDLY AND CARGO-CAPABLE.

With seating for up to 5 adults, Double Cab offers the most car-like ownership experience of all the Ranger bodystyles. And with a 1,549-mm-long cargo box, it is equally accommodating whether you're hard at work or enjoying time off with friends and family.

XLT Double Cab 4x4. Colorado Red. Available equipment.
